Orange
Flowers**Step 1**

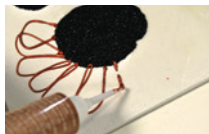

Apply the Studio gloss gel to the canvas board with a painting knife. Allow to dry for approximately 3 hours.

**Step 2**

Place 4 drops of the black sand textured gel from the tube onto the canvas. Keep the canvas board flat and lightly tap against the table to obtain even and rounded drops.

**Step 3**

With the Cerne Relief, draw flower petals and stems around the drops. Allow to dry for approximately 1 hour.

**Step 4**

Mix the lemon Vitrail colour with the lightening medium (50/50). Generously apply the colour to half the surface with a fan brush.

**Step 5**

Apply the orange Vitrail to the other half of the surface. Allow to dry approximately 10 hours.

**Tip:**

When using the Cerne Relief lift the nozzle away from the surface, to obtain a thinner line.
